- > No mechanically wearing parts
- > High or slow speed adjustment
- > Single screw for air gap adjustment
- > Fibreglass springs lifetime guaranteed
- > Water and heat resistant electromagnetic coil protection level IP 67 with polyurethane resin 200 C with polypropylene housing 120 C
- > Heat Resistance silicon sealing (250 C)
- > All metallic parts in 304 stainless steel except casting body
- > Quiet operation with frequency range 3000 rpm – 6000 rpm
- > Sensitive adjustment with pot.meter & variable speed control
